## B.A. Human Biology - Anthropology

If needed, you can complete MATH 101 or 104 the summer before starting this schedule or complete CHEM 135 the summer after (see footnote #1).

### First Year Summer: BIOL 105 Biology Orientation Seminar (1 h; online course) - required major admission course for students entering KU in/after Fall 2014

<table>

</tbody>
</table>

**Note:** Be sure to check course timetables when they are published to check for time conflicts.

1. Requires a Math ACT score of 26+; a comparable SAT or KU Math Placement Exam score, or credit for a MATH 101 or 104 equivalent course. MATH 121 or MATH 125 can be taken instead of MATH 115 + 116 to fulfill the math requirement.
2. Concurrent or prior enrollment in CHEM 130 is required.
3. PSYC 104 recommended.
4. CHEM 135 offered only in spring; BIOL 416, 570, and CHEM 310 are only in fall.
5. Most medical schools require the full CHEM 330, 331, 335, and 336 sequence and PHSX 114/211+216 and PHSX 115/212+236.
7. Refer to DPR and degree checksheets (humanbio.ku.edu). Completion of 2 of 4 major categories required.

A minimum of 45 Jr./Sr. hours (300+ level) is required for degree completion.
A minimum of 120 hours is required for degree completion.

This sample 4-yr plan is current as of 4/2015.

Please keep in mind that this sample plan provides just one example of how courses could be taken, and it is not meant to substitute for meeting with an academic advisor. It should be used with an up-to-date Degree Progress Report (DPR) and the appropriate degree requirement checksheet (humanbio.ku.edu/degrees/).
